testing**

**3-day
turnaround**

**Extensive
accreditation**

Industry leaders

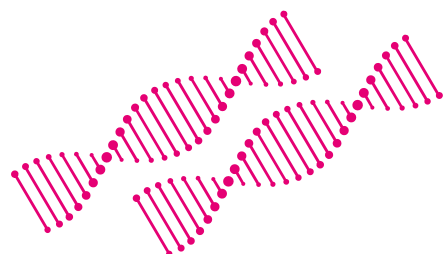

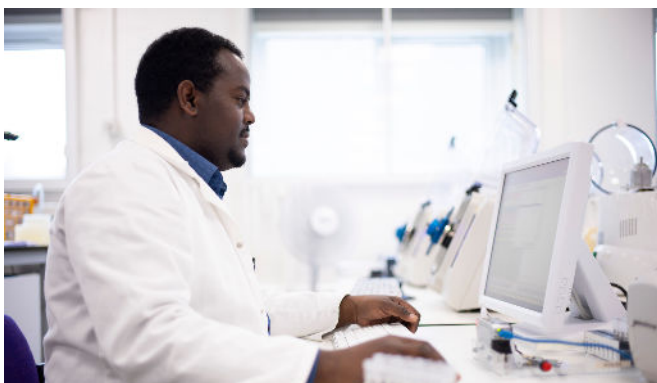

Our founders pioneered drug and alcohol testing in the UK over 30 years ago. Today, our Cardiff based lab continues to lead the industry, delivering fast, reliable results across a range of tests, including Ministry of Justice-accredited DNA testing. With our quick turnaround times, you get the answers you need, without the wait.

When is DNA testing needed?

Our DNA tests are commonly used to confirm biological relationships in:

- Family court proceedings
- Child custody
- Immigration applications
- Inheritance and probate
- Peace-of-mind testing

Each test provides court-admissible results you can rely on, with full support throughout the process.

Feel at ease

DNA testing with Cansford is designed to be smooth, non-invasive and straightforward. Using two cotton swabs, we collect a sample from inside the cheek – no discomfort, no disruption, and no complicated procedures.

Nationwide coverage

Trained to make donors feel at ease, our collectors work throughout the UK, and can be available in 48 working hours to perform collections wherever necessary, whether that's at an office or a home address.

Fast turnaround times

From receipt of the sample to final report, you can count on us to provide clear, accurate results quickly, that's why we guarantee a 3-5 working day turnaround time.

Making testing accessible

We believe accurate testing should be accessible to everyone. That's why our DNA testing is priced below the thresholds set by Legal Aid, making it a viable option for those who qualify for public funding.
