DRUG AND ALCOHOL TESTING FOR THE WORKPLACE

**Pioneering
expertise**

**Multi-method
testing**

**3-day
turnaround**

**Extensive
accreditation**

Industry leaders

Our founders introduced hair strand testing to the UK over 30 years ago and today, our modern and bright UKAS accredited lab continues to set the standard. We also offer lightning-fast lab results and reports with our standard three working day turnaround.

Which drugs can we test for?

We test for an extensive and ever growing list of substances, including alcohol, steroids, prescription medications, and illicit drugs. Whether you need clarity on recent use or patterns over time, we'll recommend the most suitable testing method for your situation – giving you fast, reliable answers that support confident decision-making.

Tailored testing

Our drug and alcohol testing services are designed to fit around your schedule, causing minimal disruption to your operations while supporting a safe, compliant, and productive workplace.

FAST, RELIABLE TESTING - TRUSTED RESULTS

Feel at ease

Our process is discreet and respectful – requiring just a shoelace-sized strand of hair, or a small finger prick of blood, we are far less invasive than many other labs. There's no visible patch, no unnecessary fuss, and always enough of a sample left for retesting if needed.

Nationwide coverage

Trained to make donors feel at ease, our collectors work UK-wide, and can be available in 48 working hours to perform collections wherever necessary whether that's an office or a home address.

Trusted support for a safe workplace

We help you meet your duty of care by providing testing that supports safety, wellbeing, and compliance across all types of working environments. Whether it's for routine monitoring, pre-employment checks, or investigative purposes, our services are designed to protect your team and support a positive, productive culture. With decades of scientific expertise, we're trusted by clients to deliver fast, accurate results and friendly, professional support from start to finish.

"We've had very positive feedback from our team about working with Cansford Labs. The drug testing process has been smooth and well-handled. Everything is clearly explained, and any questions or nerves from candidates are dealt with confidently. It's made the whole experience much easier for us as a team."
